Dear Georgette,

I recently met with Mike Atkinson, Danny Root and Cathy Elgas to discuss a proposed East County Aquatics Center at Granite Hills High School. Being a Granite Hills alumni myself, I am thrilled at the opportunity this presents to the youth in our area.

I don't have to tell you that Granite Hills Aquatics have outgrown the facilities at Montgomery Middle School and this proposed project could not be more timely. I wholeheartedly support this world class facility and the many programs this center could present for people of all ages and abilities, including your fine aquatics program and a venue for visiting events.

This is a very exciting prospect for our fine city. Please let me know how I can assist.

Sincerely,

Mark Lewis  
Mayor
